PROFILE

Seeking a job opportunity as a software engineer in an enterprising environment. I am a driven individual with skills and expertise in the designing, planning, and maintenance of software programs. I wish to work with a diverse team that strives towards contributing to the company's vision and goals.

INTERNSHIP

PUMO TECHNOVATION

- My internship at Pumo Technovation involved hands-on learning in front-end development
- Acquired proficiency in HTML, CSS, and JavaScript.
- Participated in the development of interactive web applications.
- Explored responsive web design principles.
- Implemented user interface enhancements using JavaScript frameworks.

PROJECTS

MMI APPROACH FOR DIAGNOSING RESPIRATORY PROBLEMS(COVID-19)

- Developed the MMI Approach for Diagnosing Respiratory Problems(COVID-19) Project, which introduces an innovative and accessible method to detect COVID-19 early.
- The MMI Approach offers a rapid turnaround time for results, enabling quick identification of COVID-19 and utilizes innovative testing devices that are portable and cost-effective

E LEARNING WEBSITE

- Create and manage the marketing budget, ensuring efficient allocation of resources and optimizing ROI.
- Oversee market research to identify emerging trends, customer needs, and competitor strategies.
- Lead, mentor, and manage a high-performing marketing team, fostering a collaborative and results-driven work environment.
- Monitor brand consistency across marketing channels and materials.
